SUMMARY

AI & Data Science student passionate about building AI-powered products and user-centered digital experiences. Skilled in full-stack development, API integration, product thinking, and UI/UX design through hackathons and real-world projects.

ACHIEVEMENTS

- Winner — Base44 Campus Hackathon
- Participant — NASA Space Apps Challenge
- Participant — Multiple National-Level Hackathons
- Runner-Up — School Chess Championship

LEARNING THROUGH BUILDING

- Built AI-powered and full-stack applications solving real-world problems.
- Worked with authentication systems, APIs, responsive web development, and AI integrations.
- Developed product-thinking and collaboration skills through hackathons and independent projects.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML, CSS, Swift
Development: React, Supabase, Firebase, REST APIs, Authentication Systems
Design: Figma, UI/UX Design, Product Thinking, Apple Human Interface Guidelines
Tools: Git, GitHub, VS Code, Postman

SELECTED PROJECTS

SRUVO – AI-Powered Pet Care Ecosystem

- Built a platform integrating AI assistance, veterinary support, booking systems, and pet management.
- Designed a scalable ecosystem focused on user experience and accessibility.

Virtual Gardener AI

- Developed an AI gardening assistant with plant analysis and weather-based recommendations.

Habit Tracking App (SwiftUI)

- Created a habit tracker focused on simplicity, reminders, and long-term consistency.

EDUCATION

Sanjay Ghodawat University, Kolhapur
B.Tech – Artificial Intelligence & Data Science | 2025 – Present
